

*Butler*  
Human Services®  
FURNITURE

## PRODUCT CATALOG

Providing quality furniture  
for over 25 years.

# About Butler Human Services

We provide furniture for human service organizations such as community residences, supportive housing providers, shelters, residential treatment programs, fire stations, and EMS response facilities. We collaborate with each client to ensure they get high-quality, durable furniture at a price that accommodates both needs and budget.

## Durability & Selection

We understand how important it is to buy furniture that lasts. Low-cost furniture options are enticing but lead to replacing furniture within a year or two, which means spending more time and money, resulting in higher operating costs. We offer a wide variety of furniture to suit the specific needs of your program that you won't get when purchasing retail furniture. Butler offers Custom Made Upholstery with 1,000+ fabric and vinyl options, bed bug resistant beds, and a 10- to 25-year warranty on most products.

## Value

Butler offers the best price for the best value. That's because we provide a superior quality product that will last longer and give you better service and cost less in the long run.

## Support

Our Regional Sales Managers are experts in the human services field. They will assist you in all aspects of purchasing furniture, from choosing the right furniture, assisting with layout configurations, and determining a suitable fabric. You can reach our Sales Reps and Project Coordinators at our toll-free number 1-877-852-0784.

## Furniture Assembly

The Butler Delivery Team has extensive experience helping with purchase and assembly. Our services include furniture placement according to blueprints and the removal of all packing materials. We can deliver any size order from large multi-unit projects to a single chair.

## Experience

Butler has over 25 years of experience in manufacturing and providing comfortable and durable furniture to a wide range of human services customers. Our craftsmen and sales force have many years of experience. We know our customers and provide them with the service they expect.

- Standard moisture barrier to protect surfaces from spills and incontinence
- Covered by a 10-year or 25-year warranty

Learn more at [butlerhumanservices.com](https://www.butlerhumanservices.com)

# Fully Renewable

Renewable seating from Butler allows you to replace parts of your chair, loveseat, or sofa without purchasing an entirely new piece. Fully renewable seating extends the life of your furniture while saving you money and offering more versatility.

## Environmental Friendliness

The uniqueness of our renewability and replacement system significantly extends the life of furniture, ultimately reducing contributions to the waste on our planet.

## Foam

Only the highest quality, high-density foams are used, and are covered under warranty.

## Construction

The methods allow for product longevity while providing great versatility, making it easy to access components on-site, often with one simple tool.

## Wood

The strong frame is made up of hardwood plywood and Baltic Birch plywood, providing the furniture with more stability than ordinary solid hardwood framing that can crack over time.

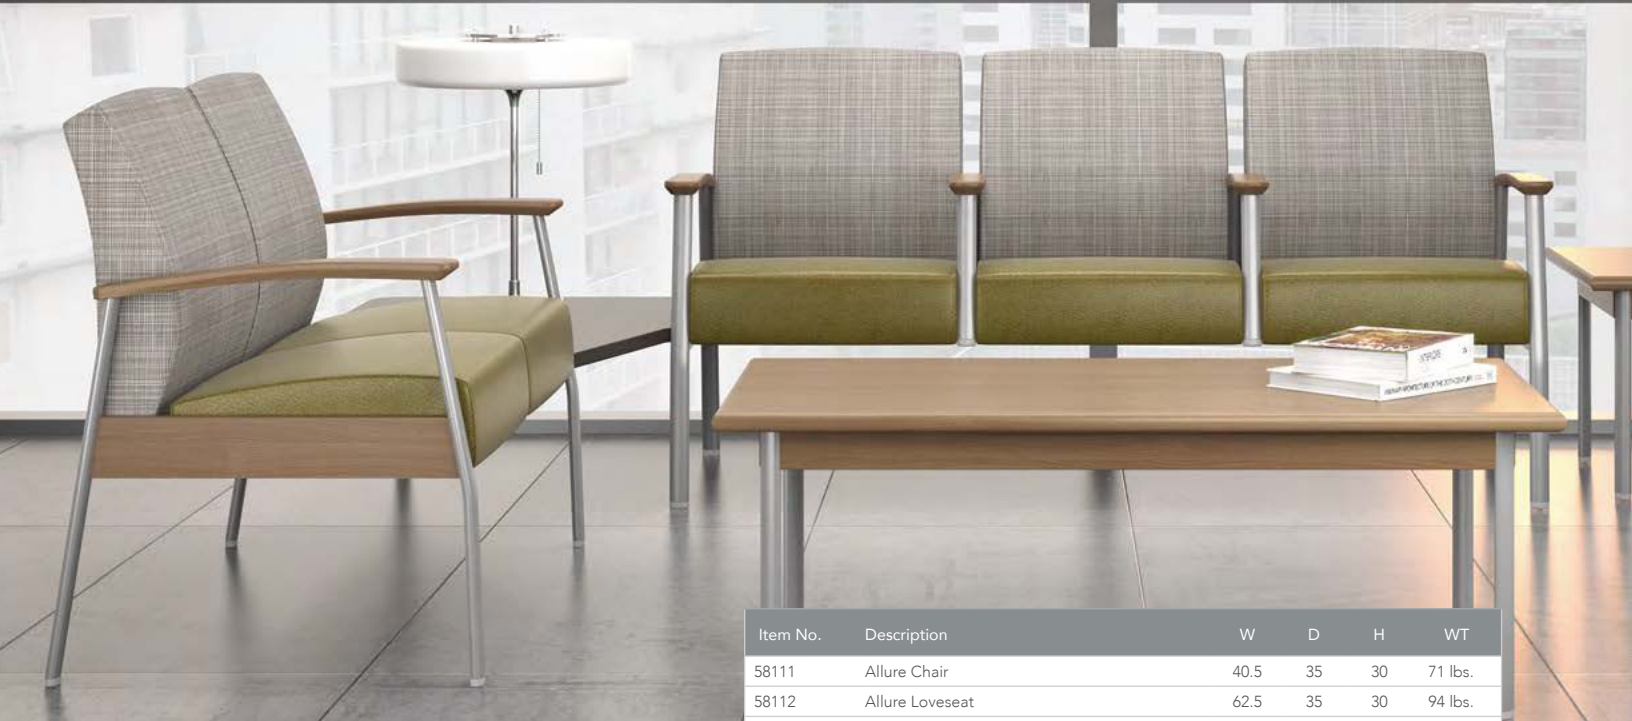

## Fabrics

Hook-and-loop closures keep the fabric securely in place, yet allow easy on-site removal for cleaning and replacement on fully upholstered models.

## Moisture Barrier

A pliable waterproof membrane protects interior foams from any kind of liquid damage - spot cleaning becomes a simple task. *Does not come standard on Canton and Chill products.*

Rally is completely configurable for a variety of spaces - use as a single piece or combine modular units to create sectional groupings. The Smart Design System includes securing components with hidden interlocking metal fasteners for easy replacement. Rally furniture is completely renewable, meaning that arms, legs, foam and fabric can all be replaced on site. This allows for ease of updating, without having to purchase new furniture.

# Chill

The Chill Collection offers a unique feature being component replaceable. This means if a leg, arm or cushion is broken or worn, a replacement can be ordered and easily reattached.

Chill Sofa and Chair | Drum Table

*Chill offers two leg options including plybent wood rail and tubular metal.*

Item No.	Description	L	D	H	WT
15311	Chill Chair	33	36	34.5	75 lbs.
15312	Chill Loveseat	55	36	34.5	96 lbs.
15313	Chill Sofa	77	36	34.5	128 lbs.

# Component Replaceable

We offer seating options that are component replaceable, providing easy replacement of worn or damaged furniture directly in the field. New components arrive with fresh foam and pre-applied upholstery covers for a quick swap with minimal tools and effort.

## Arms

The arms are attached to the frame with four bolts, which are accessible from the underside of the chair and one bolt accessible after removing the seat cushion.

## Chair Base

Includes a one-piece back and sinuous wire seat deck, can be replaced once all other components are removed.

## Seat Cushion

Tethered to the chair frame using a fabric flap with hook-and-loop.

## Legs

Legs are attached to the underside of the arms with bolts. Every Chill unit comes with the required attachment points to accept either metal or wood legs, which are interchangeable.

Legacy Collection

# Standard Upholstery

Furniture from Butler Human Services® is built for durability. It can withstand heavy use in high traffic environments. We pride ourselves on delivering durable, high quality products, and stand behind them with unmatched warranty service. What's inside...that's what really matters!

## 10 Year Frame Warranty

10 times average retail warranty.

### Anti-Bacterial Vinyl Fabrics

These materials not only help keep furniture sanitary, they also give our seating a longer, lasting life in high use environments.

### High Density Back Foam

Provides Superior Comfort

### Engineered Lumber & Strong Joint Construction

Designed for high use environments.

### Solid High Density Compression Seat Foam

Greater comfort, prolonged support and cushioned definition.

### Reversible Seat Cushions

More than doubles useful life of cushion. Available on most styles.

### Hardwood Frame Cross Rails

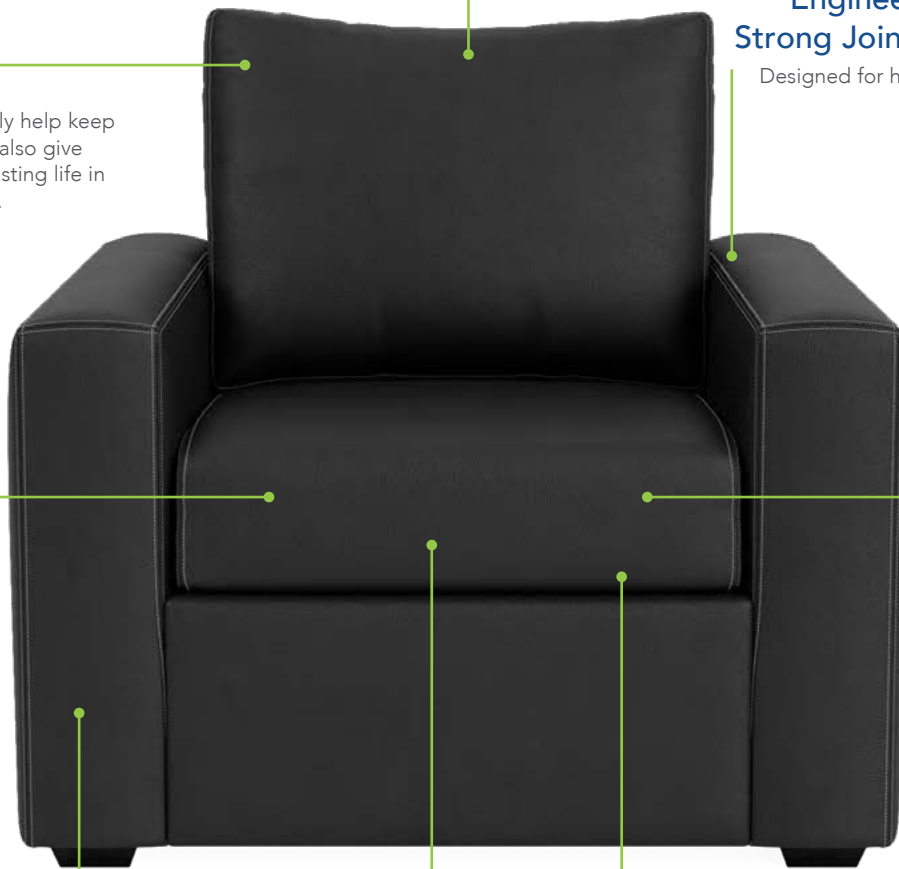

Thicker and stronger frame construction to stand up to tough environments.

### No-sag Springs Seat Support

Offers greater comfort and eliminates protruding spring coils.

### Insulated Seat Deck

Reduced wear from spring contact.

# Standard Upholstery Collection

Butler offers several styles of Standard Upholstery that are available in limited fabric options and are ready to ship.

Powder coated steel drawer sides for maximum strength and easy cleaning. 5/8" Thick melamine faced drawer bottoms provide strong support and smooth cleanable surfaces.

Endure Collection | Mason Bed

# How Metal Beds Can Help Fight Against Bed Bugs

- Inverted stitched seams minimize hiding places that can harbor bed bugs.
- No brass vents which permit bed bug access to mattress interior.
- Nylon fluid and tear resistant mattress cover.
- Easy clean powder coat finishes.
- Lenox, Mason, Studio, and Merit beds feature sealed surface bed frames that eliminate hiding places that harbor bed bugs.
- Tooless assembly with exterior hooks for easy setup.

Bed bugs are a serious issue. To help combat this problem, Butler has created metal beds and bed bug resistant mattresses with features to help keep residents comfortable and free from pests.

## What is the STURDY Act?

The STURDY Act makes safety testing related to furniture tip-overs mandatory. The rigorous testing simulates real-world use and conditions. The Act took effect in the fall of 2023, and The U.S. Consumer Product Safety Commission (CPSC) actively enforces the standard.

Butler Human Services® Legacy, Merit, Classic, and Endure Collections are STURDY Act compliant and have been tested in an independent lab to pass the ASTM (American Society for Testing and Materials) standards required by STURDY.

Your Butler Human Services Rep can help when selecting STURDY-compliant products. Learn more at [ButlerHumanServices.com/STURDY](https://ButlerHumanServices.com/STURDY).

# Mattresses | Foundations | Encasements

Our box springs have substantially increased resistance to drying and cracking.

## Bed Bug Resistant Inverted Seam

Research has shown that bed bugs live in and reproduce in taped edge mattresses. The Butler Human Services XP Plus Dual Firm Mattresses are designed with minimal tape exposure.

XP Plus Dual Firm Mattress

Spec Tex Innerspring Mattress

## Strong Arm Bed Support

The Strong Arm Center Support System is designed to reinforce your bed's central area, which bears approximately 70% of your weight. This strategically placed support helps prevent warping, broken wooden slats, and damaged side rail cleats that hold your bedding.

## RENEWABILITY

Butler Human Services® Furniture has long been a proponent of designing and building environmentally responsible seating products. The company continues to implement initiatives to help promote environmentally responsible practices throughout our organization.

To further its commitment to environmental stewardship, Butler is continually exploring creative, responsible ways to do business, so as to better preserve our natural resources and protect the environment for future generations.

## SUSTAINABILITY

Our policy starts with a commitment called stewardship, and it means actively seeking to conserve, recycle and act with respect toward the environment. We'll go beyond the basics required, striving for sustainability of the environment from the sourcing of raw materials, to recycling and to adapting our internal processes and procedures.

Compliance with the latest environmental laws and regulation is a natural by-product for our long-term commitment to our customers, neighbors and ourselves.

### GREENGUARD® CERTIFICATION

GREENGUARD Certification ensures that a product has met some of the world's most rigorous and comprehensive standards for low emissions of volatile organic compounds (VOCs) into indoor air. GREENGUARD Certification applies to specific options on certain products. Please see product guide at [greenguard.org](http://greenguard.org).

### BIFMA e3 LEVEL® CERTIFICATION

This certification is a multi-attributed, multi-faceted approach to sustainable manufacturing within the furniture industry based on the BIFMA e3-Furniture Sustainability Standard. Under this third-party certification program, certain Butler products and processes are evaluated based on materials, use of energy, atmosphere/ ecosystem health and responsibility.

- "Waterfall" contoured seat and contoured back offer exceptional sitting comfort and support.
- Plybent hardwood frame components with mortise and tenon joint construction ensure superior stability and durability.
- Removable cushions allow easy cleaning, repair, or replacement to further extend chair service life.
- PlyLok chairs have a 750 lb. weight capacity and are stackable.
- Selection of standard wood stains with custom stain colors available.
- State-of-the-art, environmentally-friendly, 3-step finish process provides a more durable, longer lasting finish.

- Complete genuine replacement parts including chair frame, seats, and backs, extend chair service life and offer a convenient, less costly repair alternative to replacement.
- GREENGUARD® Certified for low chemical emissions UL.COM/GG UL 2818\*.
- Ganging available on select chairs.
- PlyLok and PlyWedge covered by a 25-year warranty.
- *Shipping times may vary.*

\*GREENGUARD Certification applies to specific options. Please see product guide at [greenguard.org](http://greenguard.org).

PlyWedge Side Chairs

The Upland Series offers durable seating with contemporary styling and options to create your own unique look. 2-Seat widths, multiple back materials and color options, and 3 different frame styles with multiple color choices are available.

*All Upland chairs are manufactured with seat pans made from 100% recycled plastic, of which 55% is post-consumer.*

Tailor HD Chairs and Loveseat | Drum HD Table

The image shows a modern interior space with two light green armchairs positioned in front of a large window. The window provides a view of an outdoor area with trees and a paved path. A dark blue horizontal bar is overlaid on the upper part of the image, containing the text 'Behavioral Health' in white. The floor is made of dark wood, and the wall behind the chairs is a dark teal color.

# Behavioral Health

368701HD

Hardi sits tightly to the ground. Nylon glides are optional.

Shallow hand grips make Hardi designs difficult to pick up yet easy to adjust while seated.

The one-piece construction prevents concealment.

Most Hardi models can be weighted on site. A spun-in cap on the underside is secured with tamper-proof fasteners.

# Hardi HD

- One piece construction made from roto-molded polyethylene, making the products virtually indestructible
- Nickel-plated, non removable nylon glides secured with Loctite®
- Floor mounting kits available (sold separately)
- Infused with antimicrobial compounds and UV stabilizers
- No protruding legs or hardware
- Easy to clean and maintain
- Choose from six color options, created to provide a soothing atmosphere
- 25-year warranty

Choose from six color options created to provide a calm and soothing atmosphere
