

# Protect your investment.

How to care for your fabric.

Fabric: Silica  
Type: 100% Silicone

## GENERAL RECOMMENDATIONS:

- Clean with water-based foam or upholstery cleaner or dry-cleaning solvents
- Do not saturate with liquids
- Do not get the furniture wet

## REGULAR MAINTENANCE

- Clean monthly with a clean, soft, colorfast, damp, soapy cloth or sponge and rinse with clean water

## STAIN TREATMENT AND SPOT CLEANING

- A professional cleaning service is recommended
  - It will become increasingly difficult to remove the longer a stain is allowed to set
  - Pretest any cleaning method or agent in a small hidden inconspicuous area
  - Several less concentrated applications are less damaging than one concentrated application
- Remove fluids immediately by blotting with a clean, colorfast, absorbent cloth
- Flush stain with water and dry with clean cloth

## RINSE ALL CLEANING AGENTS THOROUGHLY WITH WATER AND WIPE WITH A SOFT CLOTH

- Residue left by cleaning agents will degrade and shorten the life and/or affect the product's appearance if not removed.

## REMOVE SOLID OR SEMI-SOLID SUBSTANCES

- Using a flat object, remove as much of the stain as possible
- After removal, vacuum thoroughly using the proper attachments before cleaning with an agent
- Abrasive household cleansers and steel wool should be avoided

## STAIN TREATMENT AND SPOT CLEANING

- Step 1: Silica can be cleaned very simply with a clean, soft, colorfast, damp cloth or sponge
- Step 2: If stain persists, wipe using a clean, soft, colorfast, damp, soapy cloth or sponge and rinse with clean water
- Step 3: If stain persists, consult the chart below
- If using bleach, up to a 4:1 water to bleach solution may be used
- If using other agents, please follow manufacturers recommended instructions
- Step 4: Thoroughly rinse with water and pat dry

## BLEACH CLEANABLE

- To disinfect spray a 4:1 ratio water/bleach mixture on the fabric and allow to linger for the time specified by the Centers for Disease Control and Prevention.

## RINSE ALL CLEANING AGENTS THOROUGHLY WITH WATER AND WIPE WITH A SOFT CLOTH

- Residue left by cleaning agents will degrade and shorten the life and/or affect the product's appearance if not removed.
