

Better Than Ever.

At Butler, we have been working hard to improve our products and services to better serve you and your residents. Our products are designed for long term performance, and our experience has helped us to provide the right furniture for you and your clients.

Better Than Ever

Superior Products

Our products are durable and made to stand up to heavy use in supportive housing, community residence, residential treatment facilities, and fire stations.

Greater Variety

Butler provides living, bedroom, and dining room furniture in multiple styles, finishes, and fabrics.

Expanded Warranties

Butler offers 10- to 25-year warranties on most of our products. Some Custom Made Upholstery collections feature renewability and standard moisture barrier to extend the life of your furniture. We also provide commercial grade fabric options that include a 3- to 15-year warranty.

More QuickShip Products

Butler's QuickShip program contains nearly 500 products to ensure you get your furniture as soon as possible.

Exceptional Value

Longer lasting furniture means you get more for your money. It saves you time by not regularly replacing furniture with lesser quality options.

Renewability

Renewable seating products allow you to replace parts of your chair, loveseat, or sofa without purchasing an entirely new product. Renewable furniture saves you money and gives you versatility if your style changes over time.

Excellent Customer Service

Each Butler client has a Regional Sales Manager and Project Coordinator assigned to assist them throughout the purchasing process.
